CHAMPIONFX
WHERE THE CLIENT IS KING

Currency vs. Cryptocurrency

Physical medium of exchange

Digital medium of exchange

Represented by bills & coins

Represented by 1 private key & 1 public key

Unlimited supply. Can be produced as needed.

Limited supply. Most cryptocurrencies have a set minimum.

Government issued

Produced by computers

Centralised. Issued and controlled by law & banks.

Decentralised. Not controlled by any government or entity.

Value determined by market regulation

Value determined by supply & demand

Three most popular Cryptocurrencies

Bitcoin is a digital currency created as an alternative to regular money, used as a medium of payment transaction.

2009

21 million

Litecoin is a digital currency seen as an improved, faster version of Bitcoin.

2011

84 million

Ethereum is a digital currency which enables developers to build & run decentralised applications (dapps).

2015

Unlimited

Created

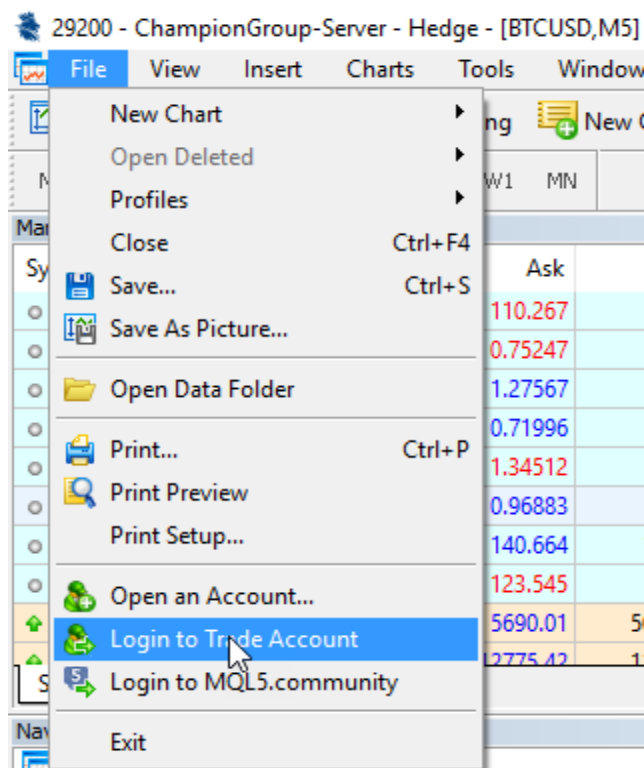

Coin supply
